This kit contains all the pieces required to build the Sicaran Venator
To glue the resin pieces together and to plastic kit parts
use Citadel® Super Glue.

NOTE: We have cast this kit using the most advanced techniques
and the best quality resin, but due to the nature of the casting process your
model may contain very slight air bubbles. These can easily be filled with
model filler or super glue. Any slight warpage of thin parts can easily be
corrected by immersing the part in hot tap water for about 1 minute then
carefully bending it back into shape.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust
mask or respirator when sanding or sawing resin parts.
